How Fusion Technology Eliminated Weeks-Worth of Manual Work with GovConPay

Fusion Technology integrated their Delttek Costpoint time management with GovConPay's powerful all-in-one Human Capital Management software and outsourcing payroll to eliminate time-consuming tasks and reorient their team to a critical mission: improving employee experience.

“ Before, Fusion used Costpoint for payroll, and Bamboo as our HRIS. The two systems didn't integrate, creating a lot of manual processes for payroll and HR. **GovConPay's experience integrating with Costpoint was a major contributing factor** in our decision.”

- **Charnell Davis**
HR Director at Fusion Technology

What problem did they face?

Because Fusion Technology's previous provider, Bamboo HR, did not integrate with Delttek Costpoint's payroll and time collection system, Fusion's payroll team was plagued by extended payroll processing times and manual tasks.

Fusion Technology sought a payroll and HR platform that could unify with Costpoint to improve payroll efficiency and alleviate the manual workload of its teams. Finding an intuitive HRIS that could improve their hiring, onboarding, and training process, while being user-friendly for employees, was important to Fusion.
